REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Atkinson:

It is with pleasure that I submit my seventh annual report as Superintendent of the Atkinson Schools.

Following will be found interesting and encouraging reports which are given by Mrs. Eva Thompson, Supervisor of Music, and Miss Helen Thomas, the School Nurse.

This Supervisory Union, of which Atkinson is a member, is comprised of the school districts of Salem, Hampstead Atkinson, Plaistow, and Newton which is arranged by the State Board of Education acting under the school law of 1919 by which the entire state, exclusive of cities, was divided into Unions for supervisory purposes. By this law the School Boards of the districts comprising a Union form a joint board which meets annually and nominates a Superintendent of Schools who is elected by the State Board.

The enrollment in our elementary schools this past year was 71 which represents a decrease of 9 from last year. The attendance averaged 94.38% of the membership. The average for the State for this period was 95.13%.

Miss Marion Nelson resigned her position as teacher in the primary room so that she might accept a position at Rochester, N. H. Miss Neville was transferred to the primary room and Mrs. Ruth Evans was elected to the vacancy in the Village Upper Grades.

The excellence of the work of our teachers is confirmed by the results of our Standard Tests given this year. That there may be a uniform rate of progress along a definite course, the State Program of Studies has been carefully followed. By a chart of this kind we are assured of no duplication of effort

and of a similar method of instruction between teachers as pupils pass from grade to grade.

Nine pupils completed the work of the 8th grade last June. Two of these entered Salem High School and seven entered Atkinson Academy. The High School and Academy has come to be an essential part of the common school system. A High School education is practically a requisite for intelligent understanding and successful participation in the social economic and national life of the world today.

One-half pint of milk has been furnished on each school day to children in need of milk. This milk has been paid for by the State from funds furnished by the Federal Government.

November 6-12 was observed as American Education week in our schools. An invitation was extended to all parents to visit schools during that week. Many parents and friends availed themselves of this opportunity. The visits not only made it possible for parents to find out what their children were accomplishing in the classroom, but also to see how our schools are conducted today. It is our wish that more parents visit the classroom in order that they may have a closer contact with the schools.

The enrollment at the Academy has increased from 24 last year to 31 this year. The general spirit of the school is excellent. The school is gaining not merely in numbers, but in quality of scholarship as well.

The attendance contest has been continued. All of the schools have won the banner but the Village Primary has received it the greatest number of times.

I wish particularly to call attention to the report of your school nurse. Circumstances of the present have rendered her in many ways a community nurse as well as a school nurse. She has been efficient in securing means and co-ordinating the efforts of local and outside agencies for Community Aid.

The work of the teachers and school administration is not made less by a business depression. On the contrary it is increased. In most places there are more children rather than fewer, to be cared for in the public schools. They present by reason of the depression more serious problems of adjustment and education. The need for the service which the school can render is greater than ever.

The emphasis of present day education should be on preparing pupils for successful and happy careers by stressing fundamental character traits, such as carefulness, co-operativeness, willingness to work, loyalty, honesty, and open mindedness. The teachers must be an inspirer as well as a drill master.

The American public school will carry on because it possesses that which business, banking concerns, industrial concerns, and even governments have long sought after—namely the confidence of the public. In addition to this it possesses the faith of innumerable parents who believe that through education their children may be led into fields of greater opportunities and greater service to humanity.

During December, Mrs. Marion Sawyer, a member of the Atkinson School Board, passed on from a life of beautiful service with us to the life beyond. She gave freely of her time and energy in planning for the welfare of the young people of the town. I wish to record here an expression of my own feeling of personal loss in the passing of this fine spirit.

In conclusion I wish to thank the School, Teachers, and Citizens for their support and co-operation.

Respectfully submitted,

WILLIAM J. NELSON,

Superintendent of Schools.

REPORT OF THE MUSIC SUPERVISOR

To the Superintendent of Schools:

I have the honor to submit my annual report as Supervisor of Music in the Atkinson schools. In looking back upon the year's work I find in every case co-operation and pleasant classroom associations.

During the past year music education in our schools has shown advancement which has been most gratifying. In the primary grades a repertoire of beautiful songs induces a love of music, and develops a good singing tone. Note reading is introduced in the second grade. In the intermediate grades a true sense of harmony is developed through two-part singing. In the upper grades, still richer harmony is experienced through three-part singing.

Musical appreciation is being carried on as usual with the help of the victrola and picture charts of the instruments of the orchestra. Ten of the world's best known classics and their composers are studied during the year.

The pupils of the Academy are working on the operetta "The Tea House of Sing Lo" and will present it in the near future.

For the co-operation afforded me in my work, I extend my thanks to you and the teachers.

Respectfully submitted,

EVA W. THOMPSON
